TRADE MARK REG

For Sowing all kinds of Seeds Broadcast

The CYCLONE SEED SOWER has been a favorite with the farmer for nearly a century. It is known throughout the world where seed is sown. Distributes accurately and quickly all smooth grass seed and grain; pellet and granular fer-

tilizer. Has exclusive DOUBLE OSCILLATING FEED and INSTANT SHUT-OFF; prevents waste and gives instant control. Sloping feed board keeps the seed flowing steadily downward to the outlet until the seed bag is empty. Can be used any time, any place a man can walk. Built for many years service. Capacity $\frac{1}{2}$ bushel. Packed 2 or 3 per carton. Shipping weight, 40 lbs. per dozen.

Cyclone Heavy Duty

**For Fertilizer
and Seeds**

The **CYCLONE HEAVY DUTY SEED SOWER** is of the same general construction as the **CYCLONE Seed Sower**. It is built with a heavier frame, gears and bearings for extra heavy wear. For broadcasting pellet and granular fertilizer as well as smooth grass seed. Packed 2 per carton. Shipping weight 50 lbs. per dozen.

The HORN Seed Sower

The **HORN Seed Sower** is a favorite in many sections of the country. Hundreds of thousands in use. Accurate and dependable. Used for sowing smooth grass seed. Has a canvas

seed bag. The metal horn is in three sections with a seed gauge and a wire scatterer. Capacity 1 peck. Packed 3 or 6 per carton. Shipping weight 10 lbs. per dozen.

LITTLE GIANT

Seed Sower

The LITTLE GIANT is of slightly different construction. It is equipped with the same DOUBLE OSCILLATING FEED and INSTANT SHUT-OFF as the CYCLONE Seed Sower. Distributes all smooth seed and grain that are sown broadcast. Capacity, about $\frac{1}{2}$ bushel. Packed 2 per carton. Shipping weight, 44 lbs. per dozen.
